

# *The Talisman*

## GENERAL TECHNICAL RIDER

*The requirements listed below are intended to preserve the performance quality. Touchstone actors are very versatile and can adapt to most performance spaces. Please contact Touchstone's Production Manager, Lisa Jordan, should any changes be required at (610) 867-1689.*

### **STAGE:**

1. Playing space must be at least 18' wide x 18' deep x 15' tall.
2. Stage should be clear of any splinters, nails, tacks, etc.; as well as swept and mopped before each performance.
3. Stage needs to be completely cleared to ensure a timely load-in.
4. Access to performance space 90 minutes prior to and 30 minutes following performance. It is preferred that no one else be in the space during this time.

### **AUDIENCE:**

1. Audience size can be no more than 300 people, unless previously agreed upon with the Touring Manager.

### **SOUND:**

1. Access to either a sound system or an electrical outlet.
2. In the case of sound system, please call Lisa Jordan to confirm these needs: 3 wireless microphones and CD player all hooked into house system.

### **LIGHTS:**

1. General lighting is required for this show. We will bring lighting instruments for the stage; we will need access to an electrical outlet on stage.
2. Access to lights and someone to show us how to turn them on at time of arrival, 90 minutes prior to performance time.

### **DRESSING ROOM:**

1. One secure dressing room will be needed from time of arrival through departure.

### **PARKING:**

1. Ability to park close to performance space for load in and load out purposes. It is also extremely important for this parking spot to be near the quickest route into the performance space.
2. Parking should be available for artist's vehicle from time of arrival through departure. This can be at a different location than the loading zone.

**MISCELLANEOUS:**

1. Please have the person who is introducing the performance check in with the stage manager at least 30 minutes prior to the performance.
